Politikwissenschaft

NF Politik

Lehrveranstaltungsnummer: 53 147

Semesterjahr: SS2004

Zeit und Ort: Dienstag, 12:00 bis 14:00 Uhr, UNI 3 R. 003

Inhalte der Veranstaltung

Strategic interaction is the essence of politics and game theory is a tool that can help us understand how inter-related decisions result in specific outcomes. The Strategic Interaction and Political Behavior course is intended to provide students with a basic understanding of the characteristics of strategic interaction and with an introduction to simple concepts of game theory and negotiations. Students will be encouraged to reflect upon the added value of a game theoretical approach, as well as upon its limitations. A more general discussion of the contributions of the rational choice paradigm will also be incorporated in the tutorial.
