

**Faculty of Humanities and Social Sciences** – Department of Social Sciences  
**Research fellow (m/f/d)** with full-time-employment - E 13 TV-L HU (third-party funding, limited to 3 years)

The department of social sciences, chair for microsociology, Prof. Anette Fasang, at Humboldt-University of Berlin invites applications for a full-time postdoctoral research position in the DFG-German Research Foundation funded comparative research project "*Households' labor supply arrangement and in-work poverty: longitudinal dynamics in a cross-country comparison*", in collaboration with Emanuela Struffolino (University of Milan) and Asaf Levanon (University of Haifa). The project will address two issues: 1) which household-level decision-making processes and behaviors about working hours drive differential risks of in-work poverty, and 2) how household-level labor supply decisions shape longitudinal dynamics of in-work poverty over the life course in different welfare contexts. Country-cases are Germany, Italy, and Israel. The project will generate empirical evidence that informs theory building on the temporal dynamics of social inequality across the life course as well as policy recommendations on how to combat in-work poverty for different households in different countries.

Job description:

- Scientific research and services in the above-mentioned research project
- Including independent research work as part of the project and in cooperation with the project leaders
- Project coordination
- Quantitative longitudinal analyses
- Participation in the collection of an internationally comparative factorial survey and scientific publications in international journals

Requirements:

- University degree and doctorate in social sciences, demography or a related subject
- Very good knowledge of quantitative data analysis and experience in R or Stata
- International orientation and ideally own publications in internationally recognized scientific journals
- Research focus in at least one of the areas of family, social demography, social inequality, life course, comparative welfare state research, poverty and social policy and quantitative methods
- Excellent knowledge of English
- Ability to work independently and in a team
- Experience with factorial surveys is an advantage but not a requirement

For questions please send an email to [emanuela.struffolino@unimi.it](mailto:emanuela.struffolino@unimi.it) and [anette.fasang@hu-berlin.de](mailto:anette.fasang@hu-berlin.de)

Please send your application (incl. motivation letter, curriculum vitae, copy of your certificates in a single PDF document as well as two names of references that can be contacted, preferably in electronic form), and quoting the **reference number DR/108/22** to: Humboldt-Universität zu Berlin, Faculty of Humanities and Social Sciences, Department of Social Sciences, Prof. Dr. Anette Fasang, Unter den Linden 6, 10099 Berlin, Germany or preferably in electronic form in a single pdf file to [anette.fasang@hu-berlin.de](mailto:anette.fasang@hu-berlin.de).

The Humboldt-Universität zu Berlin is seeking to increase the proportion of women in research and teaching, and specifically encourages qualified female scholars to apply. Severely disabled applicants with equivalent qualifications will be given preferential consideration. People with an immigration background are specifically encouraged to apply. Since we will not return your documents, please submit copies in the application only.

Data protection information on the processing of your personal data in the context of the tender and selection procedure can be found on the homepage of Humboldt-Universität zu Berlin: <https://hu.berlin/DSGVO>.
